

EXTENSION GUIDEBOOK

THE METHODS

HAND-TIED EXTENSIONS

DESCRIPTION	Uses a combination of the clients natural hair & 100% human Remy (the cuticle all lies in the same directions) wefts. They are attached using a beaded sew-in method, the bead work does not show .
IDEAL FOR	Clients wanting volume and/or length. This type of extension works best on straight or wavy textured hair. Hand-tied extensions are a semi-permanent extension method. They requires in-salon maintenance every 6-8 weeks and an at home care regimen utilizing recommended professional hair products.
MAINTENANCE	<p><u>Move-ups:</u> 6-8 weeks, length between appointments is determined by your stylist based on your hair needs</p> <p><u>Brushing:</u> Add oil to the ends of the hair 2-3 times a day starting at ends and moving up. And then gently brush throughout the hair.</p> <p><u>Washing:</u> 1-2 times a week, using sulfate-free, paraben-free, and salon quality products. Make sure to detangle before washing.</p> <p><u>Drying:</u> We recommend blowdrying hair with low heat and heat protection. Wefts cannot be air-dried.</p> <p><u>Styling:</u> use styling tools set at a heat of 250 degrees Fahrenheit or below.</p>
LIFE OF HAIR	8-12 months on average with proper care and maintenance.

K-TIP EXTENSIONS

DESCRIPTION	Attached to the hair using tiny transparent keratin bonds, which blend flawlessly into your hair.
IDEAL FOR	Guests that have lower density of hair around the front hairline, would benefit from a hairline enhancement. Guests whose natural hair is above their shoulders and are wanting to add more than 3 inches in length, would benefit from a full head application. Guests with overall low density would also benefit from a full head application. Great option for curly girls.
MAINTENANCE	<p><u>Brushing:</u> Add oil to the ends of the hair 2-3 times a day starting at ends and moving up gently. And then brush throughout the hair</p> <p><u>Washing:</u> wash with a sulfate-free shampoo & conditioner and use a leave-in conditioner or a hair mask to add moisture and prevent tangles</p> <p><u>Styling:</u> Avoid excessive heat styling & use a heat protectant spray before use of heat.</p> <p><u>Drying:</u>We recommend blowdrying hair with low heat and heat protection.</p>

HALO'S & CLIP-IN'S

DESCRIPTION	<p>Halo's A thick weft of hair that is held in place with a thin, clear flexible wire</p> <p>Clip-Ins Extension hair is attached to a small metal clip, which is then clipped into your hair. Clip-in placement can be customized to places you are looking to add fullness and length. A full set of clip-ins is 5 pieces; you can additional individual pieces to create your desired look. You can also order just 1 or 2 clips in to address low density areas.</p>
IDEAL FOR	Is more ideal for finer, low density, layered, or damaged hair. There is no in-salon maintenance required with either of these extension options.
MAINTENANCE	<p>At Home Maintenance</p> <p><u>Washing:</u> Wash a few times a year, use cold water to wash, and use paraben & sulfate free shampoo & conditioner</p> <p><u>Styling & Drying:</u> Use moisturizing products and Blow dry on a low heat with heat protectant</p> <p><i>*we do not recommend to wear either of these extension options everyday, as they would have potential to cause stress on your natural hair if worn in this manner. Hand-tied or K-tip extensions are best suited for wearing every day.*</i></p>
LIFE OF HAIR	Halo's and Clip-in's can last multiple years depending on how often worn and when following good a good home hair care routine.
